

The World's Leading Trademark Professionals 2018

Filing statistics

The following tables of the top representative filers in various jurisdictions were kindly compiled and supplied by Corsearch (www.corsearch.com). To gather data for the *WTR 1000*, Corsearch supplied a list of the top filers (representatives/correspondents) for the 12 months to August 31 2017 in the selected jurisdictions. Across all of the tables, analysis was undertaken to ensure that only representative filers at law and IP firms were featured, rather than brand owners (which were eliminated where they were reported by a trademark office).
